

## **TUBULAR BAND HEATERS**

**FEATURES** 

teed complete and uniform coverage High Temperature and Tight Fitting, ensuring precise and consistent heating • Reduced Downtime extending their life even under heavy usage conditions

for optimal heat transfer

out the entire heating cycl

ments, enhancing its functionality

Single or Dual Sheath Tubular Elements

Stainless Steel Clamping Band for guaran-

Slip-Proof Clamping System optimizing heat transfer and prolonging heater life Complete, Firm Coverage guaranteeing that heat transfer remains efficient through-

Easily Modified Stock Heater allowing you to tailor the heater to your specific require-

## **SPECIFICATIONS**

MAX SHEATH TEMP	1200°F
BARREL DIAMETER	3"-12"
WATTS	650 - 2,000
WATT DENSITY (RECOMMENDED)	24-44 W/in^2
VOLTS OPTIONS	<b>120</b> and <b>240</b>
SHEATH OPTIONS	304SS or INCOLOY

## **TERMINATION OPTIONS**

LEADS WITH S/S BRAID	LEADS WITH S/S ARMOR	FIBERGLASS SLEEVE LEADS
